TELEGRAM PRINTING AND FOLDING

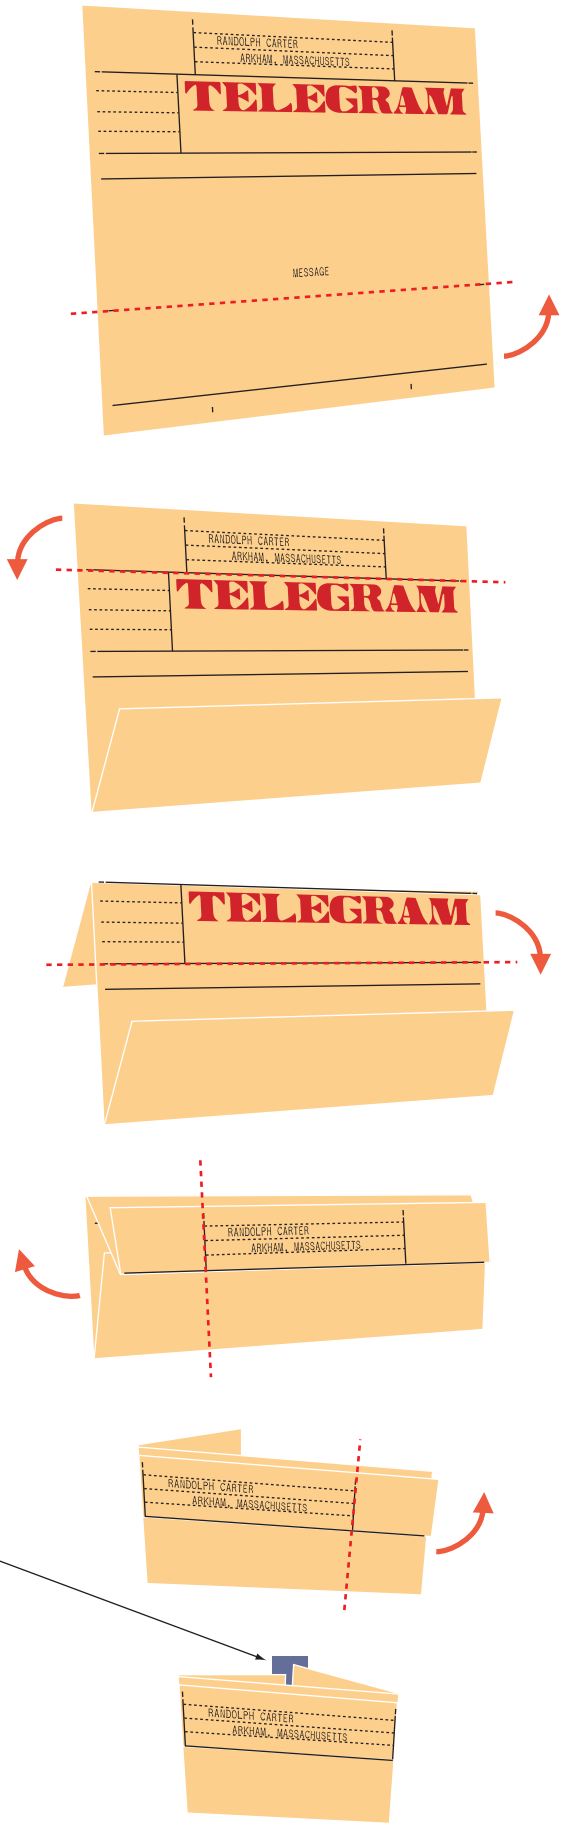
Print on light yellow paper, if possible. Printing on newsprint paper is also good, if it doesn't jam your printer.

Type address, message, etc.
Option 1: use built-in Acrobat form fields on telegram. Option 2: delete default entries in Acrobat form and print telegram "blank." Then put blank prop into an actual typewriter, or use your choice of word-processor / page layout software with alternative fonts. Using a real rubberstamp for the date adds authenticity. NOTE: sometimes telegrams were handwritten by the clerk, so you can also write the message in longhand if desired.

After address, message, etc. are entered, fold telegram according the the diagrams at right. There are small tick marks on the telegram itself to guide you. When you are finished, the telegram will be folded into a small packet with the address showing on the front and the message hidden inside.

Seal the flaps on the back of the folded packet by gluing on the seal below, or use a gold seal type sticker or a postage stamp. You can download one of the HPLHS Postage stamps for this purpose.

Shine your shoes, hop on your bicycle, and deliver your message. Be sure to wait for a tip!



This HPLHS Prop Document is for entertainment purposes only. It is intended for personal use in role-playing games, and you are free to customize and print copies for such purposes. Any commercial or illegal use of this digital file or the prop you can make from it is entirely prohibited.
